## Eye Patch Choices

Selecting the right eye patch for your child with amblyopia can help ensure the success of treatment. However, it is most important that you consult your child's eye doctor in making this selection since every patch may not be right for every child and some patches may not be appropriate for amblyopia treatment.

### ***Adhesive Patches***

There are several brands of adhesive eye patches commonly available over-the-counter in drug stores and other retail establishments:

**Coverlet<sup>®</sup> Eye Occluder**  
Beiersdorf Inc.  
Wilton, CT 06897

### **Nexcare<sup>™</sup> Opticlude<sup>™</sup> Orthoptic Eye Patch**

**Optisource**  
40 Saw Grass Dr.  
Bellport, NY 11713 USA  
1-800-OPTISOURCE (678-4768)  
[www.1-800-optisource.com/631-924-8375](http://www.1-800-optisource.com/631-924-8375)

### ***Non-Adhesive Patches***

Several alternatives are available to adhesive patches. Many of these are made by small businesses, some of which were started by parents of children with amblyopia. Some are cloth patches for wear over the eye while others are eyeglass lens occluders.

### **iPatch**

190 W. Grayling Dr.  
Fairlawn, OH 44333

Founded in 1908, Prevent Blindness America is the nation's leading volunteer eye health and safety organization dedicated to fighting blindness and saving sight. Prevent Blindness America touches the lives of millions of people each year through public and professional education, advocacy, community and patient service programs and research. These services are made possible through the generous support of the American public. Together with a network of affiliates, divisions and chapters, Prevent Blindness America is committed to eliminating preventable blindness in the United States. For more information, call 1-800-331-2020 or visit [www.preventblindness.org](http://www.preventblindness.org).
